

Changing the laws that affect manufactured/modular housing is a long and arduous process.

Change doesn't happen overnight.

PMHA's Staff, along with lobbyists Milliron & Associates put forth a lot of time and energy into tracking legislation that could affect the manufactured/modular housing industry, researching issues and devising plans of action to affect the laws governing our members. Not only is this a time consuming process, it also takes money. Through golf outings and other fund raisers, the Pennsylvania Manufactured Housing Political Action Committee (PMH PAC) works to raise funds to bring attention to the manufactured/modular housing industry on Capitol Hill but, that's not enough.

PMHA is reaching out to its membership to support the industry and make a personal contribution to the PMH PAC.

Many times we find manufactured/modular housing on the front line of attack – because of this we need to maintain a strong voice in Harrisburg through the support of members.

Together, we can make a difference!

Your Contribution To PMH PAC Will Be Used To

- Educate Pennsylvania Legislators about the manufactured/modular housing industry and issues important to you and your future
- Promote the position of industry members on current and pending legislation
- Contribute to PA legislators who actively listen to the concerns of the manufactured/modular housing industry and aggressively support our issues

Become a PMH PAC Club Member
